[Download Conio.h Dev C.](#)

A screenshot of the Dev C++ IDE. The window title is "CALCULAT.C". The code is as follows:

```
#include <stdio.h>
#include <conio.h>
void main()
{
    int a,b,c;
    char ch,i;
    clrscr();
    next:
    printf("What do u want to do:");
    scanf("%c",&ch);
    printf("Enter the value of a:");
    scanf("%d",&a);
    printf("Enter the value of b:");
    scanf("%d",&b);
```

First of all, Dev C is not a compiler, it's an IDE that interfaces with a compiler (most presumably GCC/MingW in your case).
